

## **Monthly weed report**

Thistle Check this month. I will be checking again in September, so please take care of your lot before then. A 3rd notice will result in a fine. According to the CCR's, it is your responsibility to remove thistle from your lot every year. We have had so much rain the last couple of weeks, they are really popping up!

Thanks to those who have taken care of their lots! I will try to take care of the thistle that is close to the road, but if you can help with that in front of your lot, it would be so appreciated!

Thank you,

Tiffany Jones (your friendly weed lady)

The following lots have visible thistle from the front of their lot-
